

Collection Figura

Khodi Feiz

Artifort®

INSPIRATIONAL DESIGN SINCE 1890

Figura

Its soft and fluid lines are the foundation of Figura's exceptional elegance. When designing Figura, designer Khodi Feiz aimed to create the kind of sofa that offers the best possible comfort and relaxation after a long day. Figura's multifunctional system can be adapted in an endless number of ways, making it suitable for any interior.

Meet Khodi Feiz

Designer Khodi Feiz works and lives in Amsterdam. In 1998, he founded Feiz Design Studio together with graphic designer Anneko Feiz-van Dorssen, where they specialize in the fields of product design, furniture design, graphic design, and strategic design for companies such as Alessi, Artifort, Herman Miller, Offecct and Nike. Feiz's work has received numerous awards and has been featured in exhibitions and publications worldwide. The overriding inspirations for Feiz's work can be summed up by: Clarity, concept and context. Besides Figura, Feiz also designed the famous Beso chair collection, Bras collection, Niloo armchair and the Extens cabinet program for Artifort.

“With Figura, we have managed to bring the traditional sofa into the 21st century, allowing modern technology and craftsmanship to merge together creating a soft and fluid design that is both comfortable to sink into, and elegant to look at’, explains Feiz. ‘For generations to come.’

Small or large, classic or quirky:
the versatile Figura includes
a wide range of elements
that enable it to be adapted
to any environment.

High or low armrests
As shown on the picture to the right.

Wide range of upholstery options
Figura can be optionally fitted with
piping in the same fabric.

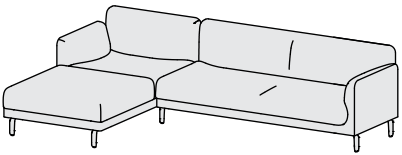

Choice of two seat heights
The beautifully cast aluminum feet can
be coated in any Artifort structure
powder-coated colour. Figura has a
standard seat height of 42 centimetres
and can be optionally made to a
seat height of 45 centimetres.

Optional wooden shelves
Add a wooden shelf to the arm
or back of the Figura.

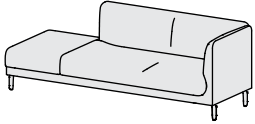

Electrification accessory
Integrate USB or power adapters
under the sofa to create an even
more functional interior design.
