**AV/Refrigerator Credenza**

The Network av/refrigerator credenzas are designed to accommodate refrigeration needs and audiovisual equipment use and storage. Each av/refrigerator credenza comes standard with a vented, thermal sensor cooling fan installed. AV rotating/slideout equipment racks are available for installation, allowing for more flexibility and usage of space. **Refrigerators are not available for purchase from Bernhardt Design and must be purchased separately.**

**Front View**  
AV/Refrigerator Credenza

**Back View**  
Showing Removeable Back Panel

**AV Rotating/Slideout Equipment Rack**

Rack max weight capacity: 200 lbs.  
 Rail System: 19" overall depth, 38" extended  
 AV rack must be screwed to the bottom of the case when installed.

**Standard Height:**  
 12 usable rack spaces  
 Usable Depth: 15 1/2"  
 Usable Width: 18 1/2"

**Serving Height:**  
 14 usable rack spaces  
 Usable Depth: 15 1/2"  
 Usable Width: 18 1/2"

**Front View**  
AV Rotating/Slideout Equipment Rack

**Veneers**

**Veneer Selections**

**FL** 1/2" Flat Edge

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 5% net upcharge with a \$500 net minimum.

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion varnish or UV topcoat is applied to protect the product. It is recommended that felt, cork or fabric backed desk pads and accessories are used on tops to minimize wear.

When specifying light finishes such as 836, 837, 840, 850 or 870, the color and characteristic variances of both veneer and solid wood are apparent. Therefore, exact color matches are not possible.
