

With a minimalist yet sophisticated design, Ciak, the director's chair by Stefan Diez is crafted in extruded aluminium, with stainless steel elements combined with outdoor technical fabric. The main hallmarks of the chair are the exploration of form, attention to detail and blend

of technological materials that come together to create a solid, timeless product, suitable for a variety of settings. The armrest is in tone-on-tone painted beech. The seat comes with an original footrest.

FRAME: PAINTED ALUMINIUM
SEAT AND BACK: EMU-TEX
ARMRESTS: PAINTED BEECH
