

VONDOM

FLAT ESQUINA LAMPARA

By Jorge Pensi

The FLAT Collection is made up of various pieces that can be used to form exterior lounge areas, but are also adequate for interior ones, thanks to their neutral shapes that are still full of identity.

One of the characteristics of this set is that it looks light, because it rests on the floor on beautifully formed aluminum legs which give the object an appearance of virtually floating.

Another distinctive characteristic is the side table joined to the main unit, which at the same time is an armrest and a surface to lean on.

It's build allows for making different combinations of pieces, to adapt them freely to any architectural space. With the corner unit it is easy to fit into angular spaces.

See online: <http://www.vondom.com/products/66005>

Features

Description

Made of polyethylene resin by rotational moulding. 100% Recyclable. Item suitable for indoor and outdoor use. Available in different finishes.

Weight

10.7 Kg

Finishes
