UNIVERSAL DESIGN

A requirement for public furniture used by many people is the universal design providing user-friendliness and a high standard of safety and durability.
CTZ is exactly the right kind of functional table incorporating these universal design concepts wherever possible.
In 2016, the CTZ table was awarded an Honor of the Universal Design Expert prize by the industry judges.

universal design expert favorite 2016

Features

Synchro-top system

This operating system enables stoppers within the front caster to rise and lower automatically with the movement of the tabletop. This safety device prevents accidents due to forgetting to lock the casters.

Wide levers

A light touch of the wide levers makes it is easy for anyone to release the locking system when reconfigured.

Nesting structure

This parallel nesting design enables the table legs to stack tightly together in a beautiful and compact way.

Smart hooks

Hooks on both ends of the top for hanging handbags.

Height adjustable casters

Adjustable casters enable the top to be set horizontally and prevent wobbling on uneven floors.
