

Gene-LN / LS Luxury seat

# Gene-LN / LS Luxury seat

# Gene-LN/LS Luxury seat

## Features

### Back lip

The flat top part of the back allows for easy handling.

### Versatile back cover options

You can select the perfect match from plastic, upholstery and veneer finish for all types of spaces.

### Waterfall design

Upholstered waterfall design creates elegant style.

### Seat options

There are two options for the luxury seat cushion.  
w/o sidewalls + stitches(LN)  
w/ sidewalls + stitches(LS)

### Flexible seat

The expanding slits perforated seat core provides light and comfortable seating.

### Environmental responsibility

All resin components are made from 100% recycled polypropylene pre-consumer waste by-products. All components are 100% recyclable. The simple construction enables disassembly for recycling of each material type.

## Options

### Stacking glides (/G)

The special stacking glides for the luxury seats enable connecting the chairs and yet prevents the seat surface from touching the chairs on top when stacking.

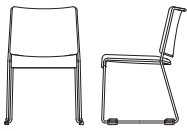

### ConnectRack (W506 x D306mm)

This spacing connector can be for the shelf of the personal items off the floor, either under the chair or between chairs.
