GOOD DESIGN AWARD

Environmental responsibility

All resin components are made from 100% recycled polypropylene pre-consumer waste by-products. The mesh texture is fashioned from 100% recycled fiber from reclaimed PET bottles. All components are 100% recyclable.

The simple construction enables disassembly for recycling of each material type.

GREEN GOOD DESIGN AWARD
As awarded by the Chicago Athenaeum :
Museum of Architecture and Design.

More recently, the European Centre for Architecture, Art, Design and Urban Studies and the Chicago Athenaeum have developed the GREEN GOOD DESIGN Award to recognise the world's most outstanding examples of sustainable design.

Tipo-SX

Tipo-SX

Tipo-SX / HX

Features

Long-term comfort

The waterfall front of the seat and the flexible mesh provide ideal body pressure distribution.

Flexibility

The torsion bar structure joining the back and seat frames delivers a natural pleasant flexing effect.

High-Density stacking

The innovative lightness makes it easy to stack up to 40 pcs on the dolly and 15 pcs on the floor. (SX)

Options

Armrests (SX-A)

Colors match the seat and back. Chairs with armrests have the same stacking capability as a standard armless chair.

Upholstered seat pad

A upholstered seat cushion is an option. The stacking bumpers protect the seat surfaces while retaining the high-density stacking capability.

Seat numbering

When selected, both the optional number holder and the number itself are fully removeable.

Ganging glides

Ganging glides capable of connecting multiple chairs. (SX)

Felt glides

The highly durable insert molded felt glides for protecting floors are an option for the non-ganging glides.

ConnectRack

This spacing connector can be for the shelf of the personal items off the floor, either under the chair or between chairs. (SX)

Stackcart

The specialized Stackcart itself for the Tipo-SX and SX-A can be stacked up to 4 pcs when not in use.

Dimensions and Weight

H : 1130mm SH : 760mm
3M (Mesh seat type) : 5.7kg
3P (PP seat type) : 6.1kg

Specifications

Mesh backrest, seat	100% recycled PET fiber (Fire retardant) 100% recycled PP+GF
PP backrest, seat	100% recycled PP
Frame	φ13mm high-tension steel pipe, chrome plating /baking finish
Armrests	100% recycled PP
Glides	100% recycled PP / 100% recycled PP with felt (option)
Stackable (SX)	40pcs on the dolly / 15pcs on the floor
Stackable (HX610,HX700)	15pcs on the dolly / 10pcs on the floor
Stackable (HX760)	8pcs on the floor
Patent registration	USA, Japan
Design patent registration	USA, EU, Australia, Japan

Features

Comfort

The waterfall front of the seat and the flexible mesh provide ideal body pressure distribution for long-term comfort.

Environmental responsibility

All resin components are made from 100% recycled polypropylene pre-consumer waste by-products. The mesh texture is fashioned from 100% recycled fiber from reclaimed PET bottles. All components are 100% recyclable. The simple construction enables disassembly for recycling of each material type.

Options

Armrests (MA/MAC-A)

Colors match the seat and back. Chairs with armrests have the same stacking capability as a standard armless chair.

Writing tablet (MA/MAC-T)

A large-size tablet is available with dimensions of W425mm x D300mm. The chair remains stackable when the tablet is folded.

Shelf

An optional shelf in baked black is available.

Upholstered seat pad

A comfortable upholstered integrated seat cushion is an option. The stacking bumpers protect the seat surfaces when stacked while retaining the high-density stacking capability.
