

## Alloro Seating System Specification Guide

### Standard Features

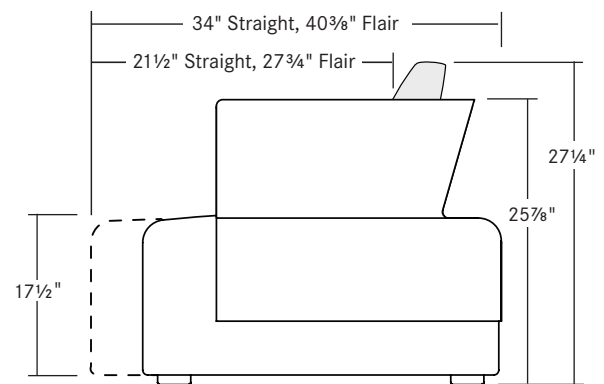

Alloro is a modular seating system comprised of 35 unique modules which can be used interchangeably to create an unlimited number of configurations. Options include sofas or modular sectionals along with straight and flared fronts.

Alloro backs are constructed of fiberglass and come standard with an attached back cushion. Alloro modules are available with contrasting fabric options, please see pricing pages for details.

Alloro is fully upholstered with 2¼" diameter non-marring adjustable glide. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold certified. See terms and conditions for additional environmental information.

Configurations are connected by a ganging bracket. Ganging brackets are included with each module.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D, and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate office for specification assistance.

**Alloro Connecting**

Alloro modular units connect together either on the end, on both sides or on the corner. The price list uses grey areas within the product illustrations to indicate the connecting areas of each unit. To the right is a sample illustration indicating the connecting areas for the products shown.
