## Colours Seating System Specification Guide

Colours is a modular seating product comprised of 12 unique modules which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the guide below.

Colours is fully upholstered with saddle stitch detailing. Fabric and vinyl applications will be railroaded. Leather will incorporate saddle stitch seams on the top panel. When submitting COM, please provide a continous roll of fabric in the total yardage for the configuration(s). Non-marring glides with vinyl sleeves prevent the units from sliding on smooth surfaces. GREENGUARD certified.
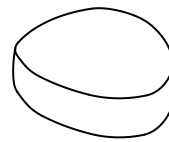

Due to the organic shapes, the dimensions can vary depending on the orientation of the product. Therefore, a maximum dimension is provided in the price list information. The 2D models provide dimensioned drawings of Colours. Consult Bernhardtdesign.com for a complete library of 2D, 3D and Revit models.

Contact your local sales representative or the Bernhardt Design corporate office for specification assistance.
