

Athena / Lounge chair Design /

The Athena line, made in steel, has a classic design for a friendly, always stylish, atmosphere. It is marked by a distinctive ornamental motif in woven metal sheet which gives elegance and character to the collection. Athena offers complete sets of chairs, tables and lounge furniture for relaxing outdoor moments. Soft, curved shapes of chairs and chaise longue blend with grace and balanced elegance.

Description

Code: **3416**

Typology: **Armchairs**

Collection: **Athena**

Stackable: 6

Static Load: 200 Kg

Cushion Material: Acrylic fabric

Technical Info

Width: **74 cm**

Depth: **78 cm**

Height: **78 cm**

Weight: **9.1 Kg**

Static Load: **200 Kg**

Packaging

Packages: **1**

Pieces for pack: **2**

Dimensions: **87x84x75 cm**

Volume: **0.548 mc**

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Cushion Material

Acrylic fabric

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolore. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
