

## Heaven / Short vase

### Design / Jean-Marie Massaud

The idea underlying the Heaven project is that of lightness derived from forms emerging from hollow spaces bordered by interweaving lines. The thin, woven steel frame is the distinctive feature of a collection marked by well-proportioned lines and overall harmony. Steel chairs paired with transparent glass tops lighten the table surfaces, lending them an intangible quality. The harmonious and sophisticated shapes of the Heaven range of furniture give the impression of unconventional elegance.

## Materials

### **Steel**

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

**Maintenance:** To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
