

Luciole / Small lamp Design /

Test
IP54

Ethereal and delicate like the fireflies from which they take the name, Luciole outdoor lamps bring a magical touch in external spaces. The soft touch of the on-off tap switch activates the lighting body. Made of outdoor resistant plastic material, Luciole is available in both table and floor version, the latter bearing rods in three different dimensions with earth spike.

Description

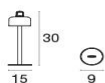

Code: **2010**

Typology: **Lamps**

Collection: **Luciole**

Test: IP54

Technical Info

Width: **15 cm**

Depth: **15 cm**

Height: **30 cm**

Weight: **0.33 Kg**

Materials

ABS

ABS is a thermoplastic techno-polymer that, once stabilised, resists well even against UV radiation and can therefore be used outside. It has strong mechanical features even at low temperatures and has high strength, impact and scratch resistance. These features make it ideal for use in a range of sectors, including furnishing.

Maintenance: Clean the product with a soft, damp cloth. Use neutral detergents, if possible diluted in water. Do not use detergents containing alcohol, trichloroethylene, ammonia or other solvents, even in small quantities.
