

Nova / High table 70x70 Design /

Small size and extreme functionality are the distinctive characteristics of Nova, a collection composed of chairs and contract table made out of tubular steel and metal sheet. The armrests, in tubular steel, have a particular shape and inclination that guarantees maximum comfort. The collection is completed with square dining tables and a rectangular table 120x80 cm, whose clean lines enhance the unique design of the seats. Thanks to the special technology used for the materials in its top, the Nova tables stabilize itself automatically on any type of flooring solving the problem of wobbling than can happen on uneven floors.

Nova / High table 70x70 Design /

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
