GATHER AROUND TOGETHER

Gather Around **Together** is our new extension to the Gather Around family of customisable modular lounges. Gather Around **Together** offers a metal leg for a lighter solution. Like its cousins, Gather Around **Together** provides a multitude of options when creating an office landscape from large open communal spaces to enclosed private hubs for smaller gatherings. The optional height backs allow you to create boundaries and divisions where needed. Mount a table on the back and create a different functional space without increasing the footprint.

Another extension is the Gather Around **Together Lounges**. These lounges have slim high sides, in four sizes including an concave version on metal legs maintaining the lighter look of Gather Around **Together**.

We have now added free-standing tables to the family. Round coffee tables in three sizes and a Laptop Table. Coffee tables have a fully upholstered base and are available with optional inserts. The Laptop table has a metal base.

The epitome of customisable functionality, the Gather Around family is based on four standard seat modules, straight, convex, concave, 90 degree corner and three standard back heights. Gather Around Closer has smaller compact modules for when space is premium. Gather Around Me Too is a two seat lounge with high sides and top canopy. Ideal for creating face to face acoustic hubs.

Configurations with high backs divide and separate open plan spaces creating acoustic hubs for meetings and presentations. Medium height backs provide good acoustics and allow people to gather around a rear mounted table and still engage with those seated inside. The low back option is all engaging and welcoming.

ENVIRONMENTALLY SUSTAINABLE

Swiss Design pioneered many of the industry's sustainable practices. Water based glues, GECA approved foams and FSC timbers which are all standard in every piece manufactured in our factories

100% AUSTRALIAN DESIGNED AND MANUFACTURED

We are passionate about the upholstery trade and making furniture pieces with consideration for customisation, time and the environment, to a level of quality few can replicate.

CARE & MAINTENANCE

FABRIC

- Upholstered products such as lounges should be protected from direct sunlight as this may lighten fabric colour
- Vacuum regularly on low suction
- Regularly rotate reversible cushions to allow even fading

LEATHER

- Upholstered products such as lounges should be protected from direct sunlight, direct heat and weather
- Regularly dust with a clean dry duster

POWDER COATED & CHROME STEEL

- Chair and table legs should be wiped down with a soft damp cloth
- Do not use abrasive cleaning products

LAMINATE

- Desks & tables should be cleaned with a soft, damp cloth
- Do not use abrasive cleaning products
- Wipe any liquid spills away quickly
