

# Lovoc

# Lovoc

A Sustainable Screen Solution.

A modular, sustainable workstation screen designed with the entire product lifecycle in mind.

The unique and patented manufacturing process of Lovoc Screens provide outstanding sustainability credentials.

Lovoc Screens are designed for disassembly at the end of the product lifecycle.

Components can easily be separated and sorted into the correct recycling streams.

No stitching or glueing allows for easy disassembly of environmentally conscious components. Lovoc components are made from 60% recycled content and materials diverted from landfill.

Lovoc Screens can be mounted to the worktop, or to the workstation frame, and are available in a wide range of sizes and configurations.
