

SERIO

Serio is another one of Axona Aichi's flip-top table collection that raises the bar in conference and office furniture, engineering and design. Serio is a collection of meeting and conference tables that celebrates minimal design with performance and functionality driving the design process. Stoppers at the leg move up and down in conjunction with the movement of the table top. When the table top is leveled off, stoppers come down and grip the floor at 4 points, which ensures high stability and safety. When the top is tipped up, the stoppers rise and make the table movable. The tables also have optional modesty panels that do not inhibit stowage of the tilt-top thanks to clever hinging.

FINISHES AND COLOURS

White, grey or light wood melamine top with ABS edging.
Silver powdercoat frame.
Optional dark grey modesty panel and/or shelf.
