

**KENNETH COBONPUE**

## CARE INSTRUCTIONS

### SYNTHETIC FIBERS

1. Wipe with a soft damp cloth with mild soap or a liquid cleaner.

Do not use acetone, trichloroethylene, ammonia or other corrosive plastic cleaners. Avoid using ethyl alcohol, abrasive solvents, cleaning powders, steel wools or rough sponge cloths.

### NATURAL FIBERS

1. Wipe with a soft damp cloth. Do not use alcohol or other spot-removers.
2. For a deeper cleaning use a little non-abrasive liquid detergent and wipe in one direction. Never use acetone, trichloroethylene or ammonia.
3. Dry the surface well with a soft cloth.

### OUTDOOR FABRICS

We use Sunbrella, an outdoor grade fabric which is guaranteed to be extremely durable, UV-resistant and colorfast.

1. Brush off any loose dirt.
2. Prepare a cleaning solution of 2 ounces (1/4 cup) mild soap per gallon of lukewarm water (less than 100°F / 38°C).
3. Use a sponge or a soft bristle brush to clean.
4. Allow cleaning solution to soak into fabric
5. Rinse thoroughly to remove all soap residue.
6. Allow fabric to air dry.

### LINENS

Linen is a very durable fabric and can be machine-washed with the rest of your laundry. Washing is recommended because the more linen is washed, the softer, more absorbent and more luminous it becomes.

1. Machine-wash linens with like colors according to their care instructions.
2. Iron linen while it is still very damp. Starch can help prevent excess creasing.

### POLYESTER

1. Machine-wash polyester using the permanent press cycle and warm water wash.
2. Add fabric softer during the rinse cycle to give it a softer feel and reduce static electricity.
3. Dry polyester on low heat setting in the dryer.
4. Remove from dryer promptly and hang or fold neatly to avoid unwanted creases.
5. Typically, polyester does not require ironing. If necessary, use a warm iron.
