

Diabolo

Design Mark Gabbertas

Diabolo is a collection of tables with a difference, in four heights and with four sizes of round tops. Created as a universally applicable range it will aptly accompany both Drum and MIR seating ranges. Diabolo is a refined, pared back and elegantly simple table programme in its own right.

Low tables, side tables, dining height tables, and bar height poseur tables. The emphasis is on colour and the mix and match capability of the two elements of top with top section of column, and bottom section of column with base, presenting both colourful and also more sober combinations as well.
